Billing Instructions (Transport)

Updated: 5/24/2019

The purpose of this chapter is to explain the documentation procedures for billing the Virginia Medicaid Program.

Two major areas are covered in this chapter:

- **General Information** This section contains information about the timely filing of claims, claim inquiries, and supply procedures.
- **Billing Procedures** Instructions are provided on the completion of claim forms, submitting adjustment requests, and additional payment services.

Electronic Submission of Claims

Electronic billing using Electronic Data Interchange (EDI) is an efficient way to submit Medicaid claims. Providers use EDI software that enables the automated transfer of data in a specific format following specific data content rules directly to DMAS. For more information, go to https://vamedicaid.dmas.virginia.gov/edi.

The mailing address, phone number and fax number for the EDI program are:

EDI Coordinator

Virginia Medicaid Fiscal Agent

P.O. Box 26228

Richmond, Virginia 23260-6228

Phone: (866) 352-0766

Fax number: (888) 335-8460

The email to use for technical/web support for EDI is MESEDISupport@dmas.virginia.gov.

Billing Instructions: Direct Data Entry

As part of the 2011 General Assembly Appropriation Act - 300H which requires that all new providers bill claims electronically and receive reimbursement via Electronic Funds Transfer (EFT) no later than October 1, 2011 and existing Medicaid providers to transition to electronic billing and receive reimbursement via EFT no later than July 1, 2012, DMAS has implemented the Direct Data Entry (DDE) system. Providers can submit claims quickly and easily via the Direct Data Entry (DDE) system. DDE will allow providers to submit Professional (CMS-1500), Institutional (UB-04) and

Billing Instructions (Transport)

Medicare Crossover claims directly to DMAS via the Virginia Medicaid Web Portal. Registration thru the Virginia Medicaid Web Portal is required to access and use DDE. The DDE User Guide, tutorial and FAQs can be accessed from our web portal at: www.virginiamedicaid.dmas.virginia.gov. To access the DDE system, select the Provider Resources tab and then select Claims Direct Data Entry (DDE). Providers have the ability to create a new initial claim, as well as an adjustment or a void through the DDE process. The status of the claim(s) submitted can be checked the next business day if claims were submitted by 5pm. DDE is provided at no cost to the provider.

Timely Filing

Federal regulations [42 CFR § 447.45(d)] require the initial submission of all Medicaid claims (including accident cases) within 12 months from the date of service. Only claims that are submitted within 12 months from the date of service are eligible for Federal financial participation. To request a waiver of timely filing requirements, providers billing electronically must submit a Claim Attachment Form (DMAS-3) with the appropriate attachments.

DMAS is not authorized to make payment on claims that are submitted late, except under the following conditions:

Retroactive Eligibility - Medicaid eligibility can begin as early as the first day of the third month prior to the month in which the individual makes application for benefits. All eligibility requirements must be met within that period for retroactive eligibility to be granted. In these instances, unpaid bills for that period may be submitted to DMAS as Medicaid claims.

Delayed Eligibility - Initial denials of an individual's Medicaid eligibility application may be overturned or other actions may cause an eligibility determination to be delayed. DMAS may make payments for dates of service more than 12 months in the past when the claims are for an individual whose determination of eligibility was delayed.

It is the provider's obligation to verify the individual's Medicaid eligibility. The individual's local department of social services will notify providers who have rendered care during a period of delayed eligibility. The notification will indicate notification of the delayed eligibility and include the Medicaid ID number, and the time span for which eligibility has been granted. The provider must submit a claim within 12 months from the date of the notification of the delayed eligibility. A copy of the "signed and dated" letter from the local department of social services indicating the delayed claim information must be attached to the claim.

Denied claims - Denied claims must be submitted and processed on or before 13 months from the date of the initial claim denial where the initial claim was filed according to the timely filing requirements. The procedures for resubmission are:

- Complete invoice as explained in this billing chapter.
- **Attach** written documentation to justify/verify the explanation. If billing electronically and waiver of timely filing is being requested, submit the claim with the appropriate attachments. (The DMAS-3 form is to be used by electronic billers for attachments. See exhibits).

Accident Cases - The provider may either bill DMAS or wait for a settlement from the responsible liable third party in accident cases. However, all claims for services in accident cases must be billed to DMAS within 12 months from the date of the service. If the provider waits for the settlement before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS shall make no reimbursement.

Other Primary Insurance - The provider must bill other insurance as primary. However, all claims for services must be billed to DMAS within 12 months from the date of the service. If the provider waits for payment before billing DMAS and the wait extends beyond 12 months from the date of the service, DMAS will make no reimbursements. If payment is made from the primary insurance carrier after a payment from DMAS has been made, an adjustment or void should be filed at that time.

Other Insurance - The member can keep private health insurance and still be covered by Medicaid. The other insurance plan pays first. Having other health insurance does not change the co-payment amount that providers may collect from a Medicaid member. For members with a Medicare supplemental policy, the policy can be suspended with Medicaid coverage for up to 24 months while the member has Medicaid without penalty from their insurance company. The member must notify the insurance company within 90 days of the end of Medicaid coverage to reinstate the supplemental insurance.

Billing Instructions: Billing Invoices (Transport)

The requirements for submission of emergency air and ground ambulance billing information and the use of the appropriate claim form or billing invoice are dependent upon the type of service being rendered by the provider and/or the billing transaction being completed. Listed below is the billing invoice to be used:

• Health Insurance Claim Form, CMS-1500 (02-12)

Example of these forms may be viewed on the DMAS website at: http://www.dmas.virginia.gov/SEARCH.ASP. If submitting on paper, the requirement to submit claims on an original CMS-1500 claim form is necessary because the individual signing the form is attesting to the statements made on the reverse side of this form; therefore, these statements become part of the original billing invoice. Medicaid reimburses providers for the coinsurance and deductible amounts on Medicare claims for Medicaid members who are dually eligible for Medicare and Medicaid. However, the amount paid by Medicaid in combination with the Medicare payment will not exceed the amount Medicaid would pay for the service if it were billed solely to Medicaid. To review the Medicaid allowed amount, providers may locate fees at:

http://dmasva.dmas.virginia.gov/Content_pgs/trn-home.aspx

Billing Instructions: Automated Crossover Claims Processing (Transport)

Most claims for dually eligible members are automatically submitted to DMAS. The Medicare claims processor will submit claims based on electronic information exchanges between these entities and DMAS. As a result of this automatic process, the claims are often referred to as "crossovers" since the claims are automatically crossed over from Medicare to Medicaid.

Medicaid reimburses providers for the coinsurance and deductible amounts on Medicare claims for Medicaid members who are dually eligible for Medicare and Medicaid. However, the amount paid by Medicaid in combination with the Medicare payment will not exceed the amount Medicaid would pay for the service if it were billed solely to Medicaid.

To make it easier to match providers to their Virginia Medicaid provider record, providers are to begin including their Virginia Medicaid ID as a secondary identifier on the claims sent to Medicare. When a crossover claim includes a Virginia Medicaid ID, the claim will be processed by DMAS using the Virginia Medicaid number rather than the Medicare vendor number. This will ensure the appropriate Virginia Medicaid provider is reimbursed.

When providers send in the 837 format, they should instruct their processors to include the Virginia Medicaid provider number and use qualifier "1D" in the appropriate reference (REF) segment for provider secondary identification on claims. Providing the Virginia Medicaid ID on the original claim to Medicare will reduce the need for submitting follow- up paper claims.

DMAS has established a special email address for providers to submit questions and issues related to the Virginia Medicare crossover process. Please send any questions or problems to the following email address: Medicare.Crossover@dmas.virginia.gov.

Effective with claims received on or after 5/23/08, DMAS can only process claims submitted with an NPI.

Medicare/Medicaid Crossover Ambulance Claim Calculation (Transport)

Medicaid reimburses providers for the coinsurance and deductible amounts on Medicare claims for Medicaid Members who are dually eligible for Medicare

and Medicaid. However, the amount paid by Medicaid in combination with the Medicare payment will not exceed the amount Medicaid would pay for the service if it were billed solely to Medicaid.

DMAS is responsible for calculating and paying all Fee-for-Service Medicaid/Medicare Crossover payments for Emergency and Non-Emergency Ambulance Services.

DMAS rate tables used to calculate Ambulance crossover payments for A0425, A0427, A0429, A0430, A0431, A0433, A0434, A0435, and A0436 can be found at:

http://www.dmas.virginia.gov/#/ambulance.

DMAS rate table used to calculate Ambulance crossover payments for A0426, A0428, A0434, and A0425 (mileage code billed with service codes listed in this paragraph) can be found at http://www.dmas.virginia.gov/#/ambulance. The preceding rate table link for these three CPT service codes are for crossover payment calculation only.

DMAS Billing Instructions for Fractional Mileage Billed on Air and Ground Ambulance Claims (Transport)

DMAS will continue to require fee for service ambulance claims and secondary Medicare ambulance claims directly from the provider to be submitted with mileage procedure codes to be rounded up to the next highest number. DMAS will only accept the claims with a decimal directly from Medicare (GHI). At this time, DMAS will continue to round up to the next highest number until our MMIS (claims system) is able to accept decimals.

DMAS will notify providers in advance when MMIS is able to accept fractional mileage on all ambulance claims.

Billing Instructions: Virginia Medicaid Web Portal (Transport)

For providers that are interested in receiving more information about utilizing any of the above electronic transactions, your office or vendor can obtain the necessary information at our fiscal agent's website: https://www.virginiamedicaid.dmas.virginia.gov.

Billing Instructions Special Note: Taxonomy (Transport)

With the implementation of the National Provider Identifier (NPI), it will become necessary in some cases to include a taxonomy code on claims submitted to DMAS for all of our programs: Medicaid, FAMIS, and SLH. Prior to using the NPI, DMAS assigned a unique number to a provider for each of the service types performed. But with NPI, a provider may only have one NPI and bill for more than one service type with that number. Since claims are adjudicated and paid based on the service type, the Department's system must determine which service type the provider intended to assign to a particular claim. If the NPI can represent more than one service type, a taxonomy code must be sent so the appropriate service type can be assigned.

Taxonomy Description Code

3416A0800X Transportation - Emergency Air

3416L0300X Transportation - Emergency Land

Billing Instructions: Negative Balance Information

Negative balances occur when one or more of the following situations have occurred:

- Provider submitted adjustment/void request
- DMAS completed adjustment/void
- Audits
- Cost settlements
- Repayment of advance payments made to the provider by DMAS

In the remittance process the amount of the negative balance may be either off set by the total of the approved claims for payment leaving a reduced payment amount or may result in a negative balance to be carried forward. The remittance will show the amount as, "less the negative balance" and it may also show "the negative balance to be carried forward".

The negative balance will appear on subsequent remittances until it is satisfied. An example is if the claims processed during the week resulted in approved allowances of \$1000.00 and the provider has a negative balance of \$2000.00 a check will not be issued, and the remaining \$1000.00 outstanding to DMAS will carry forward to the next remittance.

Invoice Processing (PP)

The Medicaid invoice processing system utilizes a sophisticated electronic system to process Medicaid claims. Once a claim has been received, imaged, assigned a crossreference number, and entered into the system, it is placed in one of the following categories:

- Remittance Voucher
- **Approved** Payment is approved or Pended. Pended claims are placed in a pended status for manual adjudication (the provider must not resubmit).
- Denied Payment cannot be approved because of the reason stated on the remittance voucher.
- **Pend** Payment is pended for claim to be manually reviewed by DMAS staff or waiting on further information from provider.
- **NO RESPONSE** if one of the above responses has not been received within 30 days, the

provider should assume non-delivery and rebill using a new invoice form.

The provider's failure to follow up on these situations does not warrant individual or additional consideration for late billing.

Exhibit 1: Virginia Medicaid Fee-for-Service Emergency Air, Emergency Ground, and Neonatal Transportation CPT/HCPCS Codes

EXHIBIT 1: VIRGINIA MEDICAID "FEE FOR SERVICE" EMERGENCY AIR, EMERGENCY GROUND, AND NEONATAL TRANSPORTATION CPT/HCPCS CODES

Claims with a date of service November 1, 2009 and after DMAS uses a two-code system for billing. The first code is for the service (base rate) and the second code is for the number of loaded miles and charges. Claims submitted with a date of service October 31, 2009 and before will be paid using the one code system. Meaning the number of loaded miles is to be billed under the number of units on the service CPT code. DMAS will continue to require fee for service ambulance claims and secondary Medicare ambulance claims directly from the provider to be submitted with mileage procedure codes to be rounded up to the next highest number. DMAS will only accept the claims with a decimal directly from Medicare (GHI). At this time, DMAS will continue to round up to the next highest number until our MMIS (claims system) is able to accept decimals.

The DMAS Fee Schedule for Emergency Air or Ground transportation is available on the DMAS website at the following address:

http://www.dmas.virginia.gov/#/ambulance
